MEETING **ECERS-R** Quick Checklist

This checklist is to help guide you through the process of setting up your learning centers to meet ECERS. The materials listed on this checklist are NOT the only materials that can be counted toward the items indicated in each subscale. This list is meant only to help you identify the kinds of materials that will count towards each of the subscales.

Once you have completed the checklist you can get more information and clarification on what needs to be observed in the environment, in the All About The ECERS-R Guide.
