

# Task Two Worksheet

Date: \_\_\_\_\_

## Ask Yourself

In order for us to improve on our learning spaces we first need to reflect on how the classroom makes you and the people living in it feel.

In order to bring out the best of any learning space, you must ask yourself.

How does the environment make you feel? \_\_\_\_\_

Can you see what interest you and the children in the environment?  yes  no

Do you feel immediately welcomed?  yes  no

Are you filled with wonder as you walk into your classroom?  yes  no

Do you want to sit and stay awhile?  yes  no

If you answered No, how can you make it better?

What would your dream classroom look like and feel like?

There is no better time than now to start growing a beautiful environment for children where they grow, thrive and are inspired to explore and discover.
